DETAILED ACTION

Specification

1. The amendment filed March 14, 2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: There is no disclosure that the plant depicted in Figure 4 is a full scale facility about 50 mgd, incorporating the components of a pilot plant. In fact, the description clearly indicates that Figure 4 depicts a pilot plant.

Applicant is required to cancel the new matter in the reply to this Office Action.

Priority

2. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 120 as follows:

This application is claiming the benefit of a prior filed nonprovisional application under 35 U.S.C. 120, 121, or 365(c). Copendency between the current application and the prior application is required.

An application in which the benefits of an earlier application are desired must contain a specific reference to the prior application(s) in the first sentence(s) of the specification or in an application data sheet by identifying the prior application by application number (37 CFR 1.78(a)(2) and (a)(5)). If the prior application is a non-provisional application, the specific reference must also include the relationship (i.e., continuation, divisional, or continuation-in-part) between the

applications except when the reference is to a prior application of a CPA assigned the same application number.

The filing date of the instant application is June 24, 2003. The date of abandonment of U.S. Application Serial Number 10/094,033 is May 28, 2003. Therefore, the instant application does not receive benefit under 35 USC 120 to U.S. Application Serial Number 09/943,638 or 10/094,033 as the filing date of the instant application is after the pendency of the later filed U.S. Application Serial Number 10/094,033 (see MPEP 201.08). Accordingly, the priority information provided in the disclosure should be deleted in its entirety.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Claim 6 recites the limitation "said high-rate" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

6. Claims 1-5 and 7-17 are allowed.

7. Claim 6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
